Benton County

MN GAC field summaries

Observed in statewide sources. Field population describes available values; it is not a compliance grade or a county-direct schema assessment.

Parcel Polygons

56.91%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.3

20,313 records | 91/91 field names | 3/7 mandatory fields full

Selected gaps: CTU Code: 0.00%; Acres (Polygon): 0.00%; Export Date: 0.00%

Population scan: 91 of 91 standard fields. All-field population: 24.08%.

Road Centerlines

94.67%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.1

4,314 records | 73/73 field names | 24/34 mandatory fields full

Selected gaps: Surface Type: 25.08%; Route System: 84.82%; Left CTU Code: 84.82%

Population scan: 34 of 73 standard fields. Unscanned fields are not scored.

Address Points

88.90%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.3.2

15,591 records | 53/53 field names | 15/18 mandatory fields full

Selected gaps: Centerline Geocodable: 0.16%; Address Authority: 18.52%; CTU Code: 81.48%

Population scan: 18 of 53 standard fields. Unscanned fields are not scored.

Population = the share of evaluated field values containing data. Full means populated for every record. Road/address observations are separate from access classifications.
