Carlton County

MN GAC field summaries

Observed in statewide sources. Field population describes available values; it is not a compliance grade or a county-direct schema assessment.

Parcel Polygons

42.86%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.3

34,068 records | 91/91 field names | 3/7 mandatory fields full

Selected gaps: CTU Name: 0.00%; CTU Code: 0.00%; Acres (Polygon): 0.00%

Population scan: 91 of 91 standard fields. All-field population: 22.15%.

Road Centerlines

99.89%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.1

4,093 records | 73/73 field names | 30/34 mandatory fields full

Selected gaps: Right Zip Code: 98.83%; Right Emergency Service Number: 98.83%; Surface Type: 99.19%

Population scan: 34 of 73 standard fields. Unscanned fields are not scored.

Address Points

100.00%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.3.2

17,026 records | 53/53 field names | 16/18 mandatory fields full

Selected gaps: Street Name: 99.99%; Centerline Geocodable: 99.99%

Population scan: 18 of 53 standard fields. Unscanned fields are not scored.

Population = the share of evaluated field values containing data. Full means populated for every record. Road/address observations are separate from access classifications.
