Hubbard County

MN GAC field summaries

Observed in statewide sources. Field population describes available values; it is not a compliance grade or a county-direct schema assessment.

Parcel Polygons

No data

MN GAC standard v1.1.3

Mandatory population
Observed 2026-11-26 05:01 CST

Unknown records | Unknown/Unknown field names | Unknown/Unknown mandatory fields full

No partial mandatory-field results available.

Population scan: Unknown of Unknown standard fields. Unscanned fields are not scored.

Road Centerlines

82.35%

MN GAC standard v1.1.1

Mandatory population
Observed 2026-11-26 05:01 CST

1 records | 73/73 field names | 28/34 mandatory fields full

Selected gaps: Route System: 0.00%; Left CTU Code: 0.00%; Right CTU Code: 0.00%

Population scan: 34 of 73 standard fields. Unscanned fields are not scored.

Address Points

No data

MN GAC standard v1.3.2

Mandatory population
Observed 2026-11-26 05:01 CST

Unknown records | Unknown/Unknown field names | Unknown/Unknown mandatory fields full

No partial mandatory-field results available.

Population scan: Unknown of Unknown standard fields. Unscanned fields are not scored.

Population = the share of evaluated field values containing data. Full means populated for every record. Road/address observations are separate from access classifications.
