MN GAC field summaries

Observed in statewide sources. Field population describes available values; it is not a compliance grade or a county-direct schema assessment.

Parcel Polygons

42.86%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.3

8,876 records | 91/91 field names | 3/7 mandatory fields full

Selected gaps: CTU Name: 0.00%; CTU Code: 0.00%; Acres (Polygon): 0.00%

Population scan: 91 of 91 standard fields. All-field population: 22.59%.

Road Centerlines

99.87%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.1

2,508 records | 73/73 field names | 31/34 mandatory fields full

Selected gaps: Right Zip Code: 97.81%; Right MSAG Community Name: 97.85%; Left MSAG Community Name: 99.92%

Population scan: 34 of 73 standard fields. Unscanned fields are not scored.

Address Points

99.86%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.3.2

4,228 records | 53/53 field names | 16/18 mandatory fields full

Selected gaps: Address Authority: 98.70%; Centerline Geocodable: 98.72%

Population scan: 18 of 53 standard fields. Unscanned fields are not scored.

Population = the share of evaluated field values containing data. Full means populated for every record. Road/address observations are separate from access classifications.
