Pope County

MN GAC field summaries

Observed in statewide sources. Field population describes available values; it is not a compliance grade or a county-direct schema assessment.

Parcel Polygons

56.00%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.3

14,032 records | 91/91 field names | 3/7 mandatory fields full

Selected gaps: CTU Code: 0.00%; Acres (Polygon): 0.00%; Export Date: 0.00%

Population scan: 91 of 91 standard fields. All-field population: 21.97%.

Road Centerlines

88.32%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.1

4,364 records | 73/73 field names | 29/34 mandatory fields full

Selected gaps: Route System: 0.71%; Elevation From: 0.71%; Elevation To: 0.71%

Population scan: 34 of 73 standard fields. Unscanned fields are not scored.

Address Points

88.98%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.3.2

8,261 records | 53/53 field names | 16/18 mandatory fields full

Selected gaps: Address Authority: 0.00%; Centerline Geocodable: 1.57%

Population scan: 18 of 53 standard fields. Unscanned fields are not scored.

Population = the share of evaluated field values containing data. Full means populated for every record. Road/address observations are separate from access classifications.
