Sherburne County

MN GAC field summaries

Observed in statewide sources. Field population describes available values; it is not a compliance grade or a county-direct schema assessment.

Parcel Polygons

57.14%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.3

44,761 records | 91/91 field names | 4/7 mandatory fields full

Selected gaps: CTU Name: 0.00%; CTU Code: 0.00%; Export Date: 0.00%

Population scan: 91 of 91 standard fields. All-field population: 31.25%.

Road Centerlines

98.98%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.1

8,027 records | 73/73 field names | 25/34 mandatory fields full

Selected gaps: Elevation From: 95.02%; Elevation To: 95.02%; Route System: 95.89%

Population scan: 34 of 73 standard fields. Unscanned fields are not scored.

Address Points

99.57%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.3.2

38,317 records | 53/53 field names | 16/18 mandatory fields full

Selected gaps: CTU Code: 96.09%; Centerline Geocodable: 96.09%

Population scan: 18 of 53 standard fields. Unscanned fields are not scored.

Population = the share of evaluated field values containing data. Full means populated for every record. Road/address observations are separate from access classifications.
