Winona County

MN GAC field summaries

Observed in statewide sources. Field population describes available values; it is not a compliance grade or a county-direct schema assessment.

Parcel Polygons

75.50%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.3

25,552 records | 91/91 field names | 5/7 mandatory fields full

Selected gaps: Export Date: 0.00%; CTU Code: 28.53%

Population scan: 91 of 91 standard fields. All-field population: 31.77%.

Road Centerlines

88.23%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.1.1

5,193 records | 73/73 field names | 27/34 mandatory fields full

Selected gaps: Routing Speed: 0.02%; Elevation From: 0.04%; Elevation To: 0.04%

Population scan: 34 of 73 standard fields. Unscanned fields are not scored.

Address Points

88.89%

Mandatory population

Observed 2026-11-26 05:01 CST

MN GAC standard v1.3.2

19,809 records | 53/53 field names | 15/18 mandatory fields full

Selected gaps: CTU Code: 0.00%; Centerline Geocodable: 0.00%; PSAP Code: 99.99%

Population scan: 18 of 53 standard fields. Unscanned fields are not scored.

Population = the share of evaluated field values containing data. Full means populated for every record. Road/address observations are separate from access classifications.
